**Curricular Modifications Assignment**

1.a. Develop Curricular Modifications/adaptations to facilitate the participation and skill acquisition of at least 4 students in general education classrooms, curriculum and interactions with general education peers. (One student may be the person targeted for the PBS assignment.)

1.b. Modifications/adaptations for 2 students must include a focus on social supports and friendships with typical peers. Consider strategies such as lunch buddies, social stories, school clubs, circles of support, etc.

2. Provide a summary of the modifications & their relationship to general education curricula activities/environments/student friendships. Attach examples if applicable.

3. Describe the instructional, facilitation and/or support strategies used to teach the student to use the adaptation/modifications and any adjustments made in materials or process.

4. Describe the impact of the modifications/adaptations on each student's participation, skill acquisition, and social networks. If needed, suggest changes for future improvements.

**This assignment must be submitted to task stream.**
