TED 6070 Integrated Language & Literacy Lesson Plan (Primary) Rubric Assignment

Create and implement 5 lessons that integrate language and literacy for the young child in the preschool or primary setting. These activities must reflect developmentally and culturally appropriate practice for infants, toddlers, or preschool, primary children (ages 3-8).

Identify language and literacy objectives and/or standards based on the PS DRDP, CA Infant-Toddler/Preschool Foundations or English-Language Arts Content Standards for California Public Schools. Develop a timeline for the week and a lesson plan for each day, describing the sequence of instruction that will engage children's interest and meet objectives. List all of the materials that you will need to implement the lessons. Give a scenario of what occurred at your site when you presented these lessons and how you would adapt your lesson plans to respond to this event. After you implement the lessons, reflect on what went well and what you need to consider for future plans to make the plan even better in the future. Use Curriculum template posted on Blackboard under Course Materials or similar adaptation.
